Christmas mail with stamps

Instructions No. 2617

Difficulty: Beginner

Working time: 4 Hours

These **stamped cards, envelopes and decorations** make a great gift to your loved ones. But also spread out on a dresser, this Christmas post is an eye-catcher. **Stamps** leave a lot of room for creativity, they are easy to use and the results look impressive.

This is how you make the beautiful Christmas post:

This is where your creativity comes in. You can design the cardboard boxes and letters according to your taste. Whatever you like is allowed. Our self-designed stamps offer 13 motifs suitable for the Christmas season. The motifs can be combined with each other to create a variety of designs on paper, gift packaging and cards.

Stamp white cardboard with the silicone stamps. To do this, remove the stamps from the backing film and place them on a stamp block or silicone block. Colour the stamps with paint or ink and press them onto the desired spot. The motif is ready. Of course, you can also colour it with pens.

Cut the motifs close to the edge. You can now decorate the boxes, envelopes and cards as you wish using the items listed in the materials list.

We have added names to the envelopes and the cut-out motifs to the envelope. These can be glued on with craft glue or attached with 3D adhesive pads for a great 3D effect.

We covered one card with red paper with a wavy edge and also made a sign out of a stamp motif and a round stick. We tied it to the card with a ribbon.

We decorated the boxes and the house tag with miniatures and added signs and small stamp motifs.
