Easter pendant plotting / crafting

Instructions No. 1929

Difficulty: Beginner

Working time: 1 hour 30 Minutes

Filigree **Easter pendants are** beautiful to look at. In our instructions we offer you an Easter pattern for download, which you can realize perfectly with the cameo **plotter**. This ultra-modern plotter cuts the filigree motifs very precisely and makes cutting easier for you. However, you can also download the motifs as pdf and cut them out yourself.

Download the **DXF file for the cameo** and set it to "cut" and "cardboard". Then place the mirrored cardboard on the mat and start the plotting process. After plotting, carefully remove the designs **from** the mat using a picker. Then stick the motifs onto the cut or plotted eggs.

To only plot the egg shape, select the egg under "Send". If you want to plot out everything, mark the entire design under "Send".

Perlon thread was used for hanging up.

If you do not have a plotter machine, you can also download the templates as a pdf file and transfer them to your desired carton. Then cut them out with a cutter knife.
