Hotfoil Light + Glass Design

Instructions No. 1661

Difficulty: Beginner

Working time: 30 Minutes

Hotfoil - create beautiful decorations in the trendy metallic colours **.** Our glass bottles and glasses are a highlight with golden accents and with a chain of lights you will shine in a beautiful shine.

To create the great hotfoil effect, spray the glasses and bottles with spray paint as **desired**

It is important that the areas that are to remain free are well masked. A good way to leave larger areas free is to put a plastic bag over the top of the bottle and stick it on. In this way, the neck of the bottle, on which the bag is placed, is free of paint. You can apply this trick to any area. If you want to spray the upper part of bottles and jars, it is also advisable to glue a bag into the glass container so that the bottle remains free of paint from the inside.

Do you want to apply lettering or motifs to the glasses? You can do this simply by printing out any motifs and

sayings, placing them in the glasses and tracing them

Another great possibility is to decorate **your** bottles and other glass objects with handlettering.

To complete the bottles and glasses, you can **decorate** them with flowers, twigs and **masking** tapes **etc.** There are no limits to your design ideas!

You can achieve a great effect if you **equip** all or only some glass vessels with a chain of lights.

Must Have

VBS Glass bottles "Milk", set of 3

Fill volume: 350 ml
Content: 3 pieces
Diameter (outside): 6 cm
Height: 20 cm
Material: Glass
