Illuminated metal ring in the base

Instructions No. 3128

Difficulty: Beginner

Working time: 2 Hours

Are you longing for an atmospheric and creative Christmas decoration? Then our DIY-Wreath of lights is just the thing for you! With great light and natural materials, you can conjure up a festive atmosphere in your home in no time at all. Let your creativity run wild and discover how much fun it is to create your own Christmas decorations.

To start, carefully wrap the chain of light around the metal ring. Make sure to leave the piece that will later be pressed into the wooden stand free. This will ensure that the chain of light is evenly distributed and that the ring sits firmly in the stand.

Wrap the chain of light loosely around the ring so that you can easily adjust it later.
Use scissors to cut the pine garland to the desired length. Then take the enameled copper wire and tie the garland to the metal ring. The wire ensures a stable attachment and gives your wreath an elegant sheen. Enameled copper wire is ideal for this job as it is flexible, robust and aesthetically pleasing.

Use the hot glue to stick the pine cones between the branches of the pine garland. Use enough glue to ensure that the cones are firmly attached and do not fall off. Be careful when handling the hot glue to avoid burns.
Cut the ribbons from the wire pendants. Then hang the pendants with the enameled copper wire in the metal ring.
Finally, glue the battery compartment to the back of the wooden stand using hot glue.
The wooden stand provides stability and conceals the battery compartment so that nothing distracts from the beauty of your wreath.

Dear crafting enthusiast,

our range is constantly updated and adapted to current trends and requirements. Some of the products used in our ideas are therefore **seasonal items** that are available for a limited time at only . It is therefore possible that not all of the materials used in this idea are available in our range.

You are sure to find a suitable alternative product in our **online store** that you can use to realize your craft project individually and personally.

We hope you enjoy crafting and decorating!
