

# Anleitung: Magnetschmetterlinge für die Pinwand

Instructions No. 1396

Difficulty: Beginner 

Working time: 10 Minutes

The pastel coloured butterflies do not look only enchanting. Equipped with a magnet, you can keep everything important on your note board.

## Here's how it's done

Choose craft paper of your choice. For each butterfly you need two differently coloured papers that harmonise together. For pastel-coloured butterflies Motif paper in soft colours is particularly suitable.

Transfer the butterfly shapes from the design template to Paper. Each butterfly consists of a large shape and small filigree wings. Cut out both shapes and glue them together.

Take a clothespin for each butterfly and tie a delicate narrow organza bow in a matching colour around the clip. Fix the bow additionally with a small Pin.

Slide the pair of wings into the clip and fix it with Handicraft glue. Finally, stick small magnets under the butterfly - and your note holders are ready!

Must Have
