With the right craft materials from our online store, your project will be a DIY-Project a complete success. Experience a creative adventure that's fun and brightens up your everyday life at the same time!

Step-by-step instructions: Design marbled beer coaster

1. Prepare your workspace

Before you get started, cover your workstation with a VBS handicraft mat to avoid stains. Put on disposable gloves to keep your hands clean.

Take an old container large enough for a beer coaster . Fill it with cold tap water. Remember: paint residue cannot be removed later.

2. Marbling

Shake the marbling paints vigorously and drop them into the water. You should not use too many different colors. This could make your design uneven. The marbling paints will collect on the surface of the water to form a carpet of color.

Take a bamboo skewer and use it to draw patterns in the floating drops of paint as you wish. Let your creativity run wild!

If you now dip a beer coaster into the water, the color will stick to the coaster as a marbling pattern. Then place it on the surface to dry VBS handicraft mat.

3. Clean the water surface

To ensure that the next marbling process also delivers good results, first remove the paint residue from the water surface with a piece of paper. Now you can fill in new colors and get started with the next pattern!

4. Decorating and labeling

As soon as all beer coaster are dry, you can label or personalize them. This will make it easy for your guests to find their personalized jar later on.

Buy the colour for marbling and beer coaster or other objects for marbling in our online store now and look forward to the individual color effects!

Must Have

Beer coaster "Square", 100 pieces

Content: 100 pieces
