Black + White casting powder

Instructions No. 3052

Difficulty: Beginner

Working time: 4 Hours

Here you can find out how you can easily water these beautiful Raysin sprouts at home.

First of all, you should protect your workplace with a **handicraft mat** protect it.

Mix Raysin and water to form a creamy mixture. Follow the **instructions on the pack**!
Mixing ratio Raysin White:

280 ml water + 1kg powder = 650 ml casting compound (1x water + 3.5x powder)

Mixing ratio Raysin Black:

250 ml water + 1kg powder = 520 ml casting compound (1x water + 4x powder)

Carefully pour the mixture into the mold. Tap the filled mold lightly on the surface several times so that the air bubbles rise.
After **approx. 30 minutes**, you can carefully remove the castings from the mold **sandpaper** sand the edges smooth.
The molds must be cleaned thoroughly after use!
