Christmas storage jar

Instructions No. 2345

Difficulty: Beginner

Working time: 2 Hours

Give home-baked biscuits, roasted almonds or treats in Christmas storage jars. The jars are quickly decorated and can be personalised with name tags.

It's that easy:

1. Apply the transfer motifs to the dust- and grease-free glasses as follows: roughly cut the motifs to size and peel off the upper transparent protective film. Then place the motifs in cold water for 3-4 minutes.

Dab some rinsing water foam onto the glasses with a damp sponge and place the soaked motifs on top. Now slide the motif from the mint-coloured backing film onto the glass. The motif can still be aligned when wet.

Carefully blot dry with a cosmetic tissue. Small air bubbles can be blotted out.

The applied transfer motifs should now dry for at least 4 hours. Finally, remove the last, barely visible, protective film.

2. Punch out leaves from different papers with a punching and embossing machine and glue them together. Tip: If you don't have a punching machine, you can also use dried flowers such as eucalyptus as a decorative element.

3. Finally, tie the punched out leaves or dried flowers to the jars with a cord and bells. Fill with delicious biscuits or small gifts - and you're done!
