

# Classic Advent Wreath

Instructions No. 2873  
🔪🔪🔪 Difficulty: Beginner  
🕒 Working time: 2 Hours

What would Christmas be without an Advent **wreath**? In our tutorial we show you how you can easily make a wreath in the **classic colours red and green**. This way, every time you light the next candle for Advent, the time is shortened and made more beautiful.

## This is how you create the wreath:

Cut off individual branches of the **VBS Thuja garland** and stick them between the **fir wreath** with **hot glue**. Then insert the **candle plugs** into the wreath. Place the candles of your choice on top. Then decorate the wreath as you like. We stuck **natural decorations**, **scatter decorations** and **Christmas balls** to the wreath with hot glue.

You can decorate the finished wreath on a plate in a bowl or solo on a table.
