Colourful butterfly made from foam rubber

Instructions No. 297

Difficulty: Advanced

Working time: 45 Minutes

Combined with ribbons and designed with colour, this classic Foam sheets handicrafts product is transformed into beautiful decorations. The material is easy to work with and is also ideal for the garden. This opens up completely new horizons.

It's that simple:

Transfer twice the template for the butterfly and a matching sign to Foam sheets and cut out the pieces. Then wipe over Handicraft paint with a damp Paint sponge beige and glue the different tapes on after drying.

Now lay the two butterflies on top of each other and fix a hanging tape between them. Then sew the two parts together with Embroidery twist and pad the butterfly with some cotton wool. Now you can label the sign and emphasize all edges with the brown Ink Pads . Glue on the sign and decorate the finished butterfly with bows of checked ribbon and bobbin lace, leaving the ends hanging long.

This idea is timelessly beautiful!
