Colourful flowers for the children's room

Instructions No. 541

Difficulty: Advanced

Working time: 15 Minutes

Today we'll make colorful flowers for your nursery. You can use all your favourite colours - it's a lot of fun and not difficult at all.

That's the way to do it:

First you paint the pots and saucers in a nice colour. When the paint is dry, put the pots down and place small round beads with the Pearl Pen on it. But before you can turn the pot any further, you have to let the beads dry properly to avoid smudging them.

While the beads are drying, transfer the templates onto strong cardboard and use these templates to cut out the large flowers and the leaves from the thick one, the small Felt flowers from the thin one and then glue Felt. the two flowers together with UHU glue.

Next, cut them with Polystyrene balls a knife in the middle and paint the halves skin-coloured. Glue Wobbly eyes and pompom noses on and paint funny faces on them with a black felt-tip pen, preferably on each one a different one

Now take the side cutter, cut off 20 cm long pieces of from figure wire and remove the eyelets from the butterflies. Paint the pieces of wire dark green and pin them to the back of the flowers with straw flower needles. In the front you put the faces on them Needles and fix them additionally with some glue. By the way, you can stick the strawflower needles through the felt flowers more easily if you use a pricker needle or a thick sewing needle for the holes

Then you cut the drywall tile and fill the pots with it. Stick the flowers in and fix the leaves to the stem with hot glue. Finally, you can spread the moss on the pots and glue the butterflies on the flowers and pots.
