Decorative metal candle holders

Instructions No. 2579

Difficulty: Beginner

Working time: 3 Hours

Decorative elements in black are currently very trendy. Therefore, these black metal candle holders with dried flowers are a wonderful eye-catcher for your interior design. Craft them with little effort and material.

Create decorative candle holders

Shorten the dried flower stems and tie them to the candle holders with wire. If necessary, use some hot glue to fix them in place.

Paint the hearts with black craft paint and, once dry, glue them onto the dried flowers one at a time.

Decorate and label the tags and tie them to the candle holders.

Finally, place one adhesive wax plate in each of the candle sleeves and place the spiral candles inside.
