

Dekorative Ostereier

Instructions No. 1872

Difficulty: Beginner 🍴🍴🍴🍴

Working time: 1 hour

These eggs don't look only great, they also offer a lot of space inside for little surprises - a perfect one for Easter.

Work the **Paper Paste** as thinly and carefully as possible into one of the universal decorative mats. You can carefully remove excess residue with a **Spatula** remove. Once the paste has set, carefully remove the border or individual decorative pieces from the decorative mat and remove any protruding residue using a pointed object

Now paint the eggs in any **colour** you like. To achieve a covering result, you can apply further layers of paint. Make sure that the previous colour is already completely dry

Place the different borders and decoration parts on the eggs and fix them with **Handicraft glue**. In order to achieve a 3D effect on the butterflies, the wings are first bent upwards and only glue is applied and stuck to the body. Finally, you can label the eggs with markers **with nice** messages or names.

Must Have

Paper Paste

● **4,99 €** (1 kg = 49,90 €)
RRP 12,15 €
