Earrings from FIMO

Instructions No. 1818

Difficulty: Beginner

Working time: 1 hour

Homemade and therefore unique **jewellery** is becoming more and more popular - because those who create their own jewellery will wear unique pieces. Beside classic pearl jewellery or self-knotted bracelets, there is the possibility to form jewellery pendants Modelling clays **FIMO** belongs to the most popular modelling materials, because it is available in countless colours, with glitter, gemstone and leather effects and it is very easy to work with.

This is how a bee develops from FIMO a bee

Cut 2 ribs for one bee **FIMO** in the colour **Yellow** and form a **ball** from it. Divide a rib into **Black** and try to **create** a **plate** as thin as possible **with the** modelling roller. Cut off 3 **strips** of it about 0.5 cm wide, put them around the yellow balls and try to press them on carefully. You can shorten the remaining strips accordingly. For the **eyes**, take again something **bFIMOlack** and form two **balls, which** are also pressed with light pressure into the big ball

For the cheeks, you must first **mix FIMO** white and **raspberry** to create a light color. Form again two **small balls**, which you **press** flat with your finger. Attach the cheeks also to the nearly finished bee. With a **tingling needle** or another pointed object you can press a mouth **into** the ball. For the **wings now** again something white **is needed.** This is rolled out to a **thin plate**. With the tingling needle or another object, press from the top to the middle of the plate to form two wings. The upper edges must be rounded off a little bit. Press your finger in the wings a little more outwards

Make a second bee this way. Before burning the pendants in the oven, press a strip **into** each bee from above. The FIMO The mass is then **baked in the oven** at 110 **°C** for 30 minutes. Let everything cool down well.
With a **white Permanent marker**one you can put white light spots in the eyes. Bring to the ring **Ear hole hooks** on.

Do you have desire on further **pieces of jewellery from ?** Here you will find a guide with four more ideas
