Easter card with die-cut bunny

Send velvety Easter greetings this year. Use a punching template and velvet paper to create Mr. Rabbit, the star of the card. In our example, we decorate the card with pompoms, glue pads and glossy images for a great 3D effect.

This is how it works:

First design the **colored folding card** of your choice as shown with the white cardboard and the silicone stamps VBS **Silicone stamps**.

Then punch out Mr. Rabbit from the **velvet paper**. To do this, place the **Bigz punching template** and the velvet paper between the transparent plates and run them through the machine. The velvet paper is self-adhesive, so peel off the foil on the back and stick Mr. Rabbit onto the card.

Now stick on a **pompom** and the **vintage glossy pictures**. For the 3D effect, use **3D glue pads**.

Must Have

Sizzix Bigz punching template "Mr. Rabbit by Tim Holtz"

Motif size: 12.1 cm
Material: Metal
