These **miniature Easter bunny doors** are a cute variation on the fairy door or Secret Santa door. Designed in soft pastel shades, they are ideal as spring decorations or as a beautiful **personalised card** for an Easter greeting. A great Easter decoration for Easter bunny fun.

## This is how you design the extraordinary cards:

These **cards** can be made just as you like. In our example, we first created the doors with **craft paint**. By dabbing brown stamping ink onto the door frames, we gave the doors a nice texture.

For the **door** with the bunny ears, cut out the ears and inner ears from a selected paper and glue the parts on top of each other. Now fix both doors and the ears to the cards.

Now you can embellish the cards with further accessories such as **scatter pieces** and papers.
