Easter table decorations made from tree slices

Instructions No. 2491

Difficulty: Beginner

Working time: 2 Hours

At Easter time, you can't do without a matching table decoration. With this beautiful Easter table decoration made of tree slices, you can create a modern but simple decoration. With the colourful tulips, this idea is also perfect for spring.

First you have to glue the test tube with the wood glue onto a tree slice. Then glue the small bark discs next to it so that it is at the same height as the test tube.

Next, apply the wood glue to the bark slices again and place a second tree slice on top so that everything is fixed. Now you have to let everything dry once.

When everything has dried, cover the spaces in between with the appropriate Iceland moss. Then decorate the tree slices with willow, feathers and eggs. Finally, you can now place the tulips in the test tubes.
