Egg candle holder

Instructions No. 851

Here you can let your creativity run free. Paint eggs, balls and slices in a variety of colours according to your taste and combine them to create cheerful candlesticks. Even the handicrafts will put you in a good mood!

And here's how it works

Use a drill to enlarge the holes in the wooden wheels until the round rod fits through. Cut holes in the eggs with the scissors at the top and bottom. Remove the rubber rings from the wooden wheels. Put the wheels, balls and eggs on the round stick and saw it off. Mix the different colours with some white, paint the wheels and balls and eggs with it

Tip: Dab the paint onto the eggs with a Paint sponge . After drying, paint different patterns on the eggs with a fine brush. Fix the cut round bars with hot glue in the lower wheels, put eggs and balls on them. Fix the upper wheels also with hot glue. Glue matching felt circles under the candlesticks with wood glue.
