A large arch glued Motif straw silk, into the rustic window imitates this atmospheric view into the distance. With a special wiping technique the window still gets the typical Patina, which makes the Mediterranean look perfect. It's

that easy

Paint the remaining areas blue.
Then wipe over the blue areas with a damp, first Paint sponge black, then ivory
Tip: The paint can be wiped on and off in the wet state until the desired effect is achieved.
Finally, emphasize the edges in black again.
Remove the motif Paper from area, fit the motif straw silk and Napkin varnish glue it on
After Paper drying, cut back the excess with a scalpel.
Color the free areas above and below the motif straw silk. To do this, dab on the colours with a soft brush and thus imitate the look of the imitation Straw silk paper .
