Filigree ballerinas from photo cardboard

Instructions No. 505

The **filigree dancers made of photo cardboard** turn elegantly around their own axis with every little breeze. A wonderfully pretty, playful decoration, which gets special highlights through the sparkling Swarowski crystals.

And so it goes

Enlarge the templates to 200% and transfer them to the Cut out Craft cardboard sheet. the figures and border them first on one side, after drying also on the other side with Glitter Liner.
When the liner is dry on the second side, cut each ballerina to about 20 cm Organza ribbon and fix it around the waist with hot glue. Then decorate the skirts with a Satin ribbon floret and a floret.
Now prick a small hole in the ballerina with a needle, thread a nylon thread through it and fix it with a squeezing bead. Thread on Swarowski beads and fix them above and below with a squeeze bead, which you flatten with the jewellery pliers at the desired place.
