

Floral decoration with stamped wooden box

Instructions No. 3047

Difficulty: Beginner 🍷🍷🍷🍷

Working time: 2 Hours

Are you looking for a beautiful **floral decoration**? Then we have just the thing for you! The bottles are designed with glass paint and the **wooden box with stamps**. Easy to make and beautiful to look at.

This is how you design the vases in the wooden box:

Dab the **glass bottles** with **KREUL Glass & Porcelain "Chalky"** paint.

After a drying time of approx. 4 hours, the paint can be baked at approx. 160 °C. To do this, place the object in a cold oven and only then switch on the oven. The baking time of 90 minutes only begins once the required temperature has been reached. To complete the baking process correctly, the object must cool down in the oven. The colour is then waterproof, dishwasher-safe and saliva-proof.

As long as the colour is not baked on, the paint can simply be removed with water.

First paint the **wooden box** with a thin layer of white **craft paint** and wipe it on to create a pretty antique look. Then stamp the side walls. Apply a thin layer of VBS handicraft glue to the handles and wrap them with jute

ribbon.

Insert the **lavender** and gypsophila into the glass bottles, trimming them with the side cutter if necessary. Finally, place the glass vases in the wooden box.
