

# Frühstücksbrettchen aus Holz im Landhaus-Stil

## Instructions No. 999

This set with small **breakfast boards forms** a beautiful frame for the flower motives of **Straw silk paper**. Romantically decorated in country house style they are a special eye-catcher on your breakfast table. But if this seems to be a pity, you can also hang the small boards as a picture on the wall and create a small gallery from it.

**And it's that easy**

Prime the breakfast tray in white. Cut the flower motifs from Straw silk paper, place them on the dry board and stick them on with Napkin varnish . With Ink Pads you wipe over the edges, this emphasizes the edges. Finally seal the complete board with the Clear varnish.
