Füllhorn mit Rose

Instructions No. 610

Difficulty: Beginner

Quickly made is this classic romantic table decoration, which enhances every festively set table enormously. And the rose bags are also a distinctive decoration in themselves, which fits well anywhere.

Here's **how it works**

So that the colours of the Décopatch paper are shown to their best advantage, first prime the papier-mâché cones with white Handicraft paint. When it is dry, apply the patch adhesive little by little and stick Paper flat on the cones. Paint it thoroughly, so that no air bubbles appear underneath. Cut back the edges with a scalpel after the patch glue has dried and seal the surface with patch varnish.

Finally, stick the bobbin lace with tape-Ribbon around the edges of the cones and decorate a single large flower inside.

This idea is timelessly beautiful!
