Halloween Candy Bar Decoration

Instructions No. 2652

Difficulty: Advanced

Do you have a candy bar for Halloween or would you like to decorate your home for Halloween to match the "sweet or sour" theme? Then this idea with the boxes is just right and makes everything much scarier for Halloween.

Scary beautiful boxes

First roll out the FIMO thinly, shape it and bake it in the oven according to the instructions so that worms are created. Next, transfer the box from the template set to the desired cardboard, cut it out, fold it and then glue it together. When the box is ready and holding, you can fill it with fairy wool. If necessary, you can lightly scorch the fairy wool as shown in the example and dab it with a little yellow paint. Now you can decorate the boxes with the burnt worms and the spiders.

For the clown, paint the figure cone white. Then glue on the hair made of fairy tale wool with a hot glue gun and cut it into shape. Paint on the desired face with permanent markers. The wiggly eyes then fit perfectly as eyes. Now fold a witch's staircase out of paper strips and glue it around the neck. You can then decorate the clown further with cardboard and pompoms (see example). Now all you need to do is shape the wire into a spiral and glue it to the clown and into the box with hot glue. For the sign, cut the cardboard, write on it and glue it to the round stick.

Finally, you can wrap the lollipop in cellophane bags and shape sweets from the fairy wool and then wrap them in cellophane too.
