Halloween decoration: creepy styrofoam eyes

Instructions No. 1529

Difficulty: Beginner

Working time: 15 Minutes

Are you still looking for a **craft idea** that creates a **spooky atmosphere** in your home? These creepy **styrofoam eyes** for your Halloween decoration are very easy to **create** with just a few materials.

For the creepy eyes, first prime **Polystyrene balls** in different sizes with white **Acrylic paintand let** the paint dry well. Now paint medium sized circles in different **colours** on Polystyrene balls.

After the coloured circles have dried, paint a smaller circle in the middle of the coloured one with **black Acrylic paint**. Set **light reflections** with a **thin white Marker** and draw with a red Marker some veins in the eyes

Turn two **chenille wires in** different colours to form a **Cord** together and fix the string with a little Handicraft glue in the back of the Polystyrene ball.

Then place the **eyes** with some **flowers in** a matching flower pot **or** vase **and** use them to decorate tables or chests of drawers. These **polystyrene eyes** will also make a great impression on the windowsill and can even be admired by strollers.

Must Have

VBS Polystyrene ball set, 13 pieces

Number of parts: 13
Material: Polystyrene

3,99 €
