

# Halloween Salt Dough Figures

Instructions No. 2359

Difficulty: Beginner 🍴🍴🍴🍴

Working time: 2 Hours

Are you already haunted? Our **cute and spooky wreath** is very easy to make with the **salt dough mix**. Simply cut out the **figures** with cookie cutters, decorate them beautifully and stick them to the wreath. You already have a great **Halloween decoration**.

## This is how it's done:

First mix the **salt dough mixture** with a little water and knead the dough well. This great modelling clay is ivory-coloured and made on an **ecological basis**. It is kind to the skin and ideal for craft work with children and groups.

Roll out the dough with the roller and cut out the figures with the cutters. The cut-out figures from the modelling clay dry in the air and harden within 1 - 2 days, depending on the thickness of the moulded parts and the ambient temperature.

Now you can paint the **Halloween figures** with **VBS craft paint**.

Use craft glue to stick on the **wiggly eyes**.

Then glue the salt dough figures to the wooden ring.

For a **cobweb effect** on the wooden wreath, pull apart the **cotton wool** and attach it to the wooden ring with a little glue.

Ready is a spooky wreath for the door or as a decoration in the house.
