

# Kreative Holzidee mit edding Spray

Instructions No. 1079

The bathroom is the place to feel good and relax. In this room we would like to feel particularly comfortable and we attach great importance to fresh colour accents. Transform this place into a place for the senses and experience pure relaxation with inspiring paint ideas from edding. Whether on basket, wood or Natural materials, you can design your favourite place just the way you like it.

And it's as simple as that:

1. Spraying baskets is quick and easy! The basket should be clean, dry and free of grease. Paint it with a colour of your choice from the edding permanent spray range in a crosswise direction at a distance of approx. 25 cm and allow the paint to dry briefly. This is where the unique advantage of spray painting comes into its own - you can reach every corner of the wickerwork with the paint!
2. For additional protection and a perfect finish, spray your object with edding Clear varnish (silk matt or shiny) afterwards. To do this, proceed in exactly the same way as for colour varnishing
3. After approx. 24 hours, Clear varnish will be completely dry and you can enjoy your bathroom in a relaxed manner with the new sensual accessories.
