Maritime picture made from Muggle bricks

Instructions No. 2833

Difficulty: Beginner

Working time: 2 Hours

This maritime picture made from Muggle bricks is an absolute eye-catcher for your walls. With our instructions and a few simple steps, you too can create a dreamlike picture reminiscent of summer, the beach and the sea.

First prime the **VBS decorative panel** with the **wood stain**. We have opted for the color ultramarine here.

As soon as the glaze is completely dry, you can stick the **muggle stones** on with **mosaic joint filler**. Leave to dry.

For the small message in a bottle, fill the **glass bottle** with some **shell granules**. If you like, you can add other items such as vacation memories/small present or a rolled-up piece of paper to the bottle.

Now place the **stencil** on the decorative plate with some **spray adhesive**. Dab the motif with **decorative snow**, remove the stencil and leave everything to dry. You can clean the stencil with water.

Finally, attach the small **message in a bottle** with **mosaic joint filler** and fill any gaps with the paste. Allow to dry thoroughly.
