Maritime setting with napkin technique

Instructions No. 3015

Difficulty: Beginner

Working time: 3 Hours

With this **picture frame**, designed with the **napkin technique** the vacation feeling comes directly into your four walls. The beautiful picture frame enchants with its **maritime look**, which is created by embossed motifs such as seagulls and signs.

It's that easy to design the frame:

Prime the inner part of the **picture frame** and one sheet of the **embossing foil** with antique white **handicraft paint** primer. Cut the **napkin** cut to fit the frame. Once dry, glue the top, printed layer of napkin into the frame or onto the embossing foil using napkin varnish . To do this, first apply adhesive to the areas to be covered and then place the napkin motif on top and apply adhesive again.

Cut out the motifs on the embossing foil with the tweezers scissors. Then place the motif face down on the special mat and emboss with the embossing pens: this allows certain areas of the motif to be highlighted and creates an impressive 3D effect. Glue the motifs to the frame with VBS handicraft glue to the frame.

Pluck small tufts from the **pampas grass** and fix them in place with handicraft glue . Stick on some **shell granules** as well.

Once dry, attach the **picture eyelets** to the back of the picture frame and attach the **hanging ribbon**.
