Model arched vase

Instructions No. 2217

Difficulty: Beginner

Working time: 1 hour

This decorative arched vase looks great and can also be made in just 1 hour (without drying time). Learn how you can easily model the vase with soft clay.

It's that simple:

1. First, the soft clay must be beaten soft for about 15 minutes. To do this, either bang the clay on the table or use a hammer. The clay must be well kneaded so that no cracks form during the drying time.

2. Form a roll from the whole mass and bend it into a bow.

3. Insert a test tube into the top of the arch.

4. Use your hands to smooth the surface and shape it again.

5. Leave the mould to dry for 48 hours.

6. After the drying time, coat the bow with clay sealant.

7. Finally design the vase with craft colours and decorate with dried flowers.
