Modern Christmas Cards

Instructions No. 729

Difficulty: Advanced

Christmas tinkering without Card design is simply unthinkable. Let these ideas inspire you for your next Christmas crafting fun.

Here's **how it works**

First of all, the Coloured paper should be cut to the desired size. Then the Paper is folded in a zigzag fold. Very effective are large fonts on the card. To achieve this, carefully transfer the text templates using carbonless paper, then paint over them with an edding pen

Depending on your personal taste, attach small accessories such as bows to the cards - done!
