Mural Amazonia

Instructions No. 2247

Difficulty: Beginner

Working time: 2 Hours

This summery picture brings a tropical feeling into your home. The scene was created with various stamps, wooden decorative elements and stickers. Find out how easy it is.

Step by step to the jungle picture

1. Paint the stretcher frame with craft paint in honey yellow. For a perfect colour result, apply a second coat of paint after it has dried.

2. Colour the wooden decorative elements with ink pads. Use a damp brush to blend the colours. The "Enjoy the silence" decorative element is painted in red-brown using craft paint.

3. Use the Amazonia stamp set to stamp and cut out various motifs on white paper.

4. Cut several wooden spatulas and glue them to the stretcher with craft glue.

5. Finally, arrange the individual decorative elements and stamped motifs on the stretcher and fix them in place with craft glue.
