

Nachhaltige DIY To Go Becher

Instructions No. 1833

Difficulty: Beginner

Working time: 10 Minutes

Just to get a quick drink Coffee or tea for the road at the bakery has become commonplace. However, bought disposable cups pollute our environment because they are disposed of immediately afterwards. Contribute a little bit to **sustainability** and use a personalised To Go cup for your hot drink!

Personalized with Napkin technique

First clean the surface of the cup and Bamboo then cut the napkin motif. Carefully peel Napkin off the top layer of the napkin.

Wear the **Napkin varnish** on the entire cup to obtain an even surface (not on the lid). Now apply the napkin motif to the desired place and smooth it down carefully with the brush **and** a little Napkin varnish bit.

Label your mug!

Last but not least you can start with a **Marker** over or Napkin on the edge of the lid your chosen slogan, or you can label it with your name, so that your cup is not mixed up

Make sure that the hole for drinking remains free, so that the lips are neither connected with the Napkin varnish Marker contact!

With **just a few simple steps**, you can create great, reusable cups for your **favourite hot drink on the go**.
