

Schubladen-Box-Würfel mit Décopatch

Instructions No. 596

Difficulty: Advanced 🍴🍴🍴🍴

Working time: 45 Minutes

In these great dice boxes you can sort little things like buttons, paper clips or jewels and the searching is finally over. The surfaces are colorfully covered with different Décopatch papers, on which the small Brads in the form of a flower are shown to their best advantage.

Here's [how it works](#)

Prime the drawer boxes inside and outside with white primer

Coat the different surfaces with patch glue and stick the papers flat. Paint the Paper well to avoid air bubbles

After drying, cut back the excess Paper with a scalpel and seal all surfaces with patch varnish.

Pierce holes in the front of the drawers with the prickle needle, which will remove Mini-Brads Put "flowers" through it and bend it open at the back

Cut four slits in the bottom of the boxes for the pocket feet, use them like the Brads push through and bend up inside.
