Tin candles with dried flowers

Instructions No. 2240

Difficulty: Advanced

Working time: 2 Hours

These beautiful **candles** are **handmade**. They are an ideal gift at any time of year, such as a **birthday candle**, as a **hostess gift** and on many other occasions. The beautiful candles in the metal tins spread a pleasant scent and look decorative.

This is how the candles are poured:

You will need approx. 160 g of **wax** per **metal tin**.

First place the **candle wick** in the metal box. It is best to stick it in the centre with a little glue and wrap it around a skewer or fix the wick with a clothes peg, which you then place on the tin so that it is centred when you pour in the wax.

Then melt the wax in a water bath at a low temperature or in a melting pot and add some **scented oil** if you like. Carefully pour the liquid wax into the tins. The candle will sink in a little after the drying time. If this is not desired, then a little extra wax can be melted and poured onto the dried candle.

After the drying time, the **flowers** are decorated on the candles.

Finally, the **banderoles** are designed and glued onto the lids.

Info: The dried blossoms are only decoration. They should be removed during the burning process as they are highly flammable.

Must Have

VBS Metal cans / Soap tins "Round", 12 pieces

Content: 12 pieces
Diameter (outside): 7.5 cm
Height: 4.5 cm
Material: Metal

7,95 €
