Who does not know it: You are about to leave the house and are desperately looking for your key. With these key rings your key ring will not become a only real personal eye-catcher, but you will also save valuable time while searching, because these key rings catch the eye. Also ideal as an individual gift for family and friends.

## Design your personal key ring from different materials!

## Leather

Punch a tag or pendant from a piece of leather with the Sizzix Big Shot Plus. Transfer your favourite writing onto the leather with a pencil and trace it with the branding pen.

Small symbols like hearts give the pendant a very special charm. Last but not least, pull a key ring through the pre-punched hole - and your distinctive key ring is ready!

Extra tip: Instead of punching out a day with the Sizzix Big Shot Plus, simply cut out your desired shape with standard scissors and punch a hole for the key split ring with a hole punch or pliers.
