Vacation table decoration

Instructions No. 2273

Difficulty: Beginner

Working time: 3 Hours

The pretty table decoration will give your home a maritime vacation feeling. The craft project combines the mosaic technique, candle design and miniature crafts together. Designing and decorating is not difficult and a lot of fun!

Mosaic water optics

Mix some mosaic joint compound with water according to product instructions and stick mosaic tiles on a part of the plate with this compound.

The remaining surface of the plate sprinkle with sand - so you have also created a "beach".

Maritime candles

The candles are designed quite quickly and easily.

Place one candle wick in each tealight jar. Sprinkle blue and white candle sand in layers and glue decorative shells to the jars - your nautical lights are already designed.

Vacation miniatures

Now enjoy decorating your Sea Vacations bowl with the small holidaymaker figurines, with a summer umbrella and pretty shells.

You can now arrange the made bowl according to your personal taste with more shells, perhaps with a fishing net ribbon, with driftwood or other nautical accessories in your home - the decoration is guaranteed to provide some vacation feeling!
