Wall board with bird house

Instructions No. 3030

Difficulty: Beginner

Working time: 2 Hours

This wall board is a good example of how you can create an unusual eye-catcher with little effort. The playful-looking decoration is not only very pretty to look at in spring. Make it now!

Attach the picture eyelets to the back of the oak embrasure board.

Paint the two birdhouses in delicate soft boho colors (antique white, pastel-olive green, beige, antique rose). Once the paint has dried, glue the birdhouses to the board together with decorative floss and a shortened apple blossom branch. The little birds and other scatter decoration can also be glued on using the hot glue.

The beautiful decoration is ready to brighten up your walls.
