Window Pictures in 2 Variants

Instructions No. 2142

Difficulty: Beginner

Working time: 2 Hours

Our **template** offers great crafting fun. Whether for a child's birthday, for decorating your window panes or for crafting plugs - the cute animals always look cute. Crafting the little animals is also great fun for children and maybe your children will think of other great accessories for beetles, snails and co.

Window pictures from clay cardboard

Print out the **templates** and transfer them to the **clay cardboard** using graphite paper. For window pictures, choose the original size of the print setting. If you want to make plugs, for example, you can also print out the template smaller.

Cut out the motifs from the different types of clay paper and glue them together as desired.

You can add details such as mouths, light reflections and much more with pens.

Window Pictures with Window Fantasy/Color

Download the **motif template** and print it out. **Window Fantasy** is very easy to use and comes in many different colours.
Place your printed sheet with the desired motifs under the foil and paint with Window Fantasy directly from the liner bottle onto the foil. It is best to start with the contours. The drying time is about two hours, but depends on the thickness of your drawn lines.

After the contours have dried, you can start to colour the areas as you wish.

Allow the paint to dry for about 24 hours. After the paint has dried, the painted motif can be removed from the film and attached to the window.

A great advantage of Window Fantasy pictures is that you can easily remove the motifs from your windows again and then decorate them with new window pictures.

Must Have

Photo cardboard block "Pastel"

Grammage: 300 g/m²
DIN format A4
Material: Paper

5,29 € (1 m2 = 8,53 €)
