Instructions No. 3108

Difficulty: Beginner

Working time: 4 Hours

Experience the natural beauty of wooden houses and homemade decorations. This Christmas table decoration has a minimalist design with only little color and looks very elegant thanks to the wooden look, the atmospheric chain of light and few other accessories. Be inspired by this idea and use it to create a warm, inviting atmosphere in your home.

Design with color

If you want to recreate our idea exactly, use handicraft paint in powder, pastel -pink, lavender, sea green and stone grey. to paint the wooden pieces. Carefully paint the top edge of the tray, the roofs of the houses and the inside edges of the windows, door and stars with the different colors using a fine brush.

Fix the chain of light to the inside edge of the tray with a few dots of hot glue.

Tie two fir branches together with a piece of cord . Using a needle, thread dried orange slices and small jingles onto the cord and tie the ends into a small bow. Make more pieces of this decorative accessory.

Now you can arrange all the pieces on the tray and display them decoratively in your home.
